

Geethanjali Tellagorla

Full-Stack Developer geethanjali.geetha78@gmail.com +1 (224)-436-5275

SUMMARY

- Innovative and detail-oriented web developer with **4+ years** of experience in designing, developing, and managing dynamic websites and web applications.
- Proficient in front-end technologies like **HTML, CSS, JavaScript**, and modern frameworks such as **.NET, Angular**, as well as back-end technologies including **C#, Python**, and **SQL databases**.
- Extensive experience in Front-End **UI/UX** technologies like **HTML, CSS, Angular, MVC** in developing dynamic and responsive web pages.
- Adept at collaborating with cross-functional teams to deliver user-friendly, responsive, and high-performance web solutions. Strong problem-solving skills with a focus on optimizing user experience and performance. Passionate about staying updated with the latest industry trends and continuously learning new technologies.

TECHNICAL AND DOMAIN SKILLS

- Front-End: HTML5, CSS, JavaScript, Angular, Bootstrap, React, TypeScript
- Back-End: C#, ASP.NET, .NET Core, MVC, PYTHON, JavaScript(Node.js)
- Databases: MySQL, SQL Server, Oracle DB
- Tools and Platforms: Visual Studio, GitHub, Azure DevOps
- Cloud Platforms: AWS(Amazon Web Services), Azure, Google Cloud Platform(GCP)
- API Integration: RESTful API, SOAP
- Methodologies: Agile, SDLC
- Hands on experience on C, C++, JAVA and OOPS concepts

EXPERIENCE

COGNIZANT | Hyderabad, India

November 2021– To - September 2023

Role: Full-Stack developer

Responsibilities:

- Designed and implemented user-friendly frontend interfaces using HTML, CSS, JavaScript.
- Developed and maintained backend services with Node.js, Express.js, and RESTful APIs and cloud platforms with AWS.
- Managed databases, ensuring efficient data retrieval and storage with SQL (MySQL, PostgreSQL) and NoSQL (MongoDB) databases.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Successfully delivered a full-scale e-commerce application, handling everything from database design to frontend deployment.
- Integrated third-party APIs and services to enhance application functionality.
- Implemented responsive design principles to ensure seamless user experiences across devices.

Environment: C#, .NET, MVC, HTML, CSS, JavaScript, Angular, MYSQL, Azure DevOps, Git, AWS(Amazon Web Services).

Responsibilities:

- Developed and deployed web applications using C#, ASP.NET and SQL Server, contributing to the full software development lifecycle.
- Involved in various phases of **Software Development Life Cycle (SDLC)**.
- Participated Daily Scrum meeting, sprint grooming/review and demo with management and other teams.
- Enhanced user experience by implementing dynamic features with JavaScript and AJAX, reducing page reloads and improving responsiveness.
- Designed and developed the UI using HTML, SCSS and JavaScript.
- Worked with **core java concepts** such as Oops, Multi-threading, collection framework and Exception handling
- Successful in coordinating and delivering multiple business changes simultaneously.

Environment: C#, ASP.NET, VB.NET, API Calling, HTML, CSS, JavaScript, MySQL, React JS, Node JS.

EDUCATION

- Bachelors in Information Technologies, Jawaharlal Nehru Technological University, India 2019.

CERTIFICATIONS

- Build an Angular app with ASP.NET Core and Angular - Udemy
- PYTHON – NPTEL, Indian Institute of Technology – Madras, IN
- Web Technologies – MOTIVE Computer Education, India
- Core Java – MOTIVE Computer Education, India
