PROFESSIONAL SUMMARY:

- Over 4 years of hands-on experience in designing, developing, and deploying applications using **C#, ASP.NET MVC, Web API and SQL Server**.
- Experience in using **ASP.Net MVC** architecture for developing applications using **C#, HTML, CSS**.
- Demonstrated strong problem-solving skills by identifying and resolving complex technical issues in a timely manner.
- Created and maintained detailed technical documentation, ensuring knowledge transfer for new team members.
- Actively participated in **Agile methodologies**, including sprint planning, daily stand-ups, and retrospective meetings, to promote collaboration and continuous improvement.
- Mentored junior developers, providing guidance on best practices and fostering a culture of learning and professional growth within the team.
- Good Knowledge in tools like **SQL Server Management studio** for database operations, Integration Manager tool for creating packages and **SQL Profiler** for tracking and **Microsoft Excel** for reports.
- I utilized **Jira** in my previous projects for efficient project management, tracking tasks, and ensuring timely completion of deliverables.
- Proficient with database Programming language and developing complex Stored Procedures, joins, Triggers, functions, and Views.
- Expertise in Maintaining, Supporting and Troubleshooting backend code and fixing bugs.
- Possesses rich experience working in Insurance and Health domain.
- Excellent communication and teamwork skills.
- Attention to detail and a strong commitment to delivering high-quality software solutions.

PROJECT EXPERIENCE:

Vertafore India Private Limited

Implementation Engineer II

August 2019 – August 2022

Client: Integrity Marketing Group LLC

Integrity Marketing Group (IMG) is the nation's leading independent distributor of life and health insurance products focused on serving the Senior Market. With proven distribution relationships, IMG indirectly serves as the marketing resource for many large insurance companies like TransAmerica, Cigna, Humana, Aetna, BlueCross BlueShield etc.

Responsibilities:

- Coordinated with stakeholders to gather requirements, define project scope, and deliver solutions that met client expectations.

- Proven Software development experience using different methodologies - **Agile** and Scrum methodology.
- Worked on Developing screens in three-tier architecture and Implemented Routing, Authentication, Filters concepts using **MVC**
- Led the deployment of the application using **DevOps**, automating build and release pipelines to improve deployment efficiency.
- Collaborated closely with a globally distributed team, ensuring seamless integration and continuous delivery of new features.
- Enhanced application security by implementing secure coding practices and conducting regular vulnerability assessments.
- Developed complex SQL queries and stored procedures in MySQL to optimize data retrieval and manipulation
- Provided ongoing support and maintenance for applications, resolving critical issues and implementing enhancements to improve functionality.
- Facilitated Agile Ceremonies- Scrum Daily standup, Product backlog, Sprint Planning and Sprint Review.
- Deployed releases (UI and DB) after each Sprint across various environments, including Testing and UAT.

Technologies: C#, ASP.NET MVC, SQL Server, Web API.

Client: Amerilife

Responsibilities:

- Developed a customer relationship portal for a highly interactive and responsive user interface, enhancing user engagement.
- Played a major role in designing and developing the application.
- Implemented various ASP.NET concepts like MVC, Web API, and Entity Framework
- Designed and managed **MySQL** databases, including schema creation, indexing, and normalization, ensuring data integrity and enhancing database efficiency for high-traffic enterprise applications.
- Debugged the web application and provided resolution for different kinds of issues.
- Worked on Product backlogs and Change Requests (CR's).

Technologies: C#, ASP.NET MVC, SQL Server, Web API.

Client: GUSTO

Responsibilities:

- Contributed to enhancing an existing inventory management system by integrating new features using **ASP.NET MVC**.
- Developed and optimized **SQL** queries for improved data retrieval performance.
- Conducted code reviews and debugging sessions, maintaining high code quality and adherence to best practices.
- Coordinated with the QA team to conduct thorough testing and validation of new features.

Technologies: C#, ASP.NET MVC, SQL Server.

INTERNSHIP EXPERIENCE:

Ingenious Solutions, Hyderabad

May 2018 - June 2019

Software Developer Intern

Responsibilities:

- Assisted in developing a web-based reporting tool for generating dynamic reports using Angular and C#.
- Participated in the design and implementation of user-friendly interfaces to facilitate easy report generation and data visualization.
- Collaborated with senior developers to optimize SQL queries and improve database performance.
- Gained hands-on experience with Web API and Entity Framework.
- Actively participated in Agile development processes, including sprint planning and daily stand-ups.
- Conducted performance testing and debugging to identify and resolve bottlenecks, improving application speed and responsiveness.
- Documented technical specifications and created user manuals for the new features, aiding in smoother deployment and user adoption.
- Wrote and maintained unit tests to ensure code quality and reliability.

Technologies: C#, ASP.NET, SQL Server, Web API.

TECHNICAL SKILLS:

Programming Languages	C#, SQL
Web Technologies	ASP.NET MVC, ASP.NET MVC, HTML, Web API
Development Tools	Visual Studio 2017, SQL Server Management Studio (SSMS), SQL profiler, Git
Data Bases	SQL Server
Operating Systems	Windows 8,10
DevOps	Basics of DevOps (GIT, GitHub, Jenkins, Maven)
Development Methodologies	Agile, Scrum

EDUCATION:

Wright State University

Masters in Computer Science, **April 2024**

3.90 CGPA

Mahaveer Institute of Science and Technology

Bachelor of Technology, Computer science engineering, **May 2019**

3.5 CGPA

ACHIEVEMENTS:

- Recognized as **Employee of the year 2020** for Implementation Engineer I in Vertafore India Pvt Ltd.
- Participated in National Level Technical Students Symposium Technomist-2k17 in the event of presentation.
- Attended a 3-day Mentorship Program conducted by Infosys Industry. Main Moto of the program is to guide the students about virtual employment.
