

Pooja Purohit

QA Automation Engineer | Transitioning into AI/ML Testing | Open to Remote Roles (H4 EAD)

■ Aldie, VA, USA | ■ +1 (812) 603-3212 | ■ meetpoojapurohit@gmail.com

■ LinkedIn: <http://linkedin.com/in/pooja-p-hit-bbb614114>

Professional Summary

Detail-oriented QA Automation Engineer with 9+ years of hands-on experience in building robust automation frameworks using Java, Selenium, and BDD (Cucumber). Currently transitioning into AI/ML testing with a focus on model validation, data-driven testing, and Python automation. Proven track record of delivering high-quality web and API testing in Agile/CI-CD environments. Authorized to work on H4 EAD with strong interest in remote-first opportunities.

Key Skills

Automation Tools: Selenium WebDriver, Cucumber, TestNG, Jenkins, Git, Postman Languages: Java (Advanced), Python (Learning), SQL AI/ML Testing: Model validation, data testing, edge case handling, Pandas, Scikit-learn (Basics) Frameworks: POM, Hybrid, Data-Driven, BDD CI/CD & DevOps: GitHub, Jenkins, Maven, Docker (Basic) Testing Types: Functional, Regression, UAT, E2E, API, DB Testing Other Tools: JIRA, IntelliJ, HP ALM, Quality Center, Appium (Mobile Testing)

Current Learning in AI/ML Testing

- Learning Python for ML automation - Building test scripts for model accuracy, input/output validation - Validating data pipelines using Pandas and NumPy - Creating sample tests for Scikit-learn-based ML models

Professional Experience

Sr. QA Engineer | Freddie Mac — McLean, VA

Apr 2023 – Present

- Involved in Agile ceremonies, user story review, and test planning
- Built and enhanced automation test cases using Java, Selenium, Cucumber
- Validated microservices using BDD and Postman
- Contributed to CI/CD pipelines using Jenkins and Git

Sr. Automation Tester | Railinc Corp — Remote

Sep 2017 – Mar 2023

- Sole QA contributor for braking simulation project
- Created automated scripts using Selenium, Extent Reports, Jenkins
- Managed test case execution in AWS-based test environments (S3, EC2)
- Practiced BDD-style testing using Gherkin in JIRA

Sr. Automation Software Tester | BMO Harris Bank / SLK Software — IL, USA

Mar 2016 – Sep 2017

- Designed Selenium+TestNG automation frameworks
- Integrated test suites into Jenkins CI pipeline
- Supported UAT and collaborated with developers and stakeholders

Automation Software Tester | REGIONS BANK / SLK Software — AL, USA

Oct 2015 – Mar 2016

- Built hybrid test frameworks using Selenium, Cucumber, and SQL validations
- Used ALM for tracking test results and defects

Automation Tester | MNT Bank / SLK Software — Bangalore, India

Dec 2010 – Oct 2015

- Designed QTP-based automation frameworks using VBScript
- Performed regression testing on multiple modules using Hybrid/Data Driven frameworks

Education & Certifications

Bachelor of Computer Science — [Your University Name], 2010 In Progress/Completed: - AI for Everyone – Coursera (Andrew Ng) - Python for Testers – Udemy - Google Machine Learning Crash Course

Achievements

- “Employee of the Month” – BMO Harris Bank - Spot Awards – MNT Bank - 5-Year Service Award – SLK Software
