Head line

HCM Analyst | QA & Automation Engineer | Oracle HCM & PeopleSoft Financials | PSM1 Certified | Oracle Payroll Cloud Certified

Summary

As an HCM Analyst at Tata Consultancy Services, I leverage my 8+ years of experience in Oracle HCM and PeopleSoft Financial Analytics to deliver high-quality solutions for diverse clients. With a strong foundation in Mainframe Development, I excel in handling complex data management tasks, ensuring efficiency and accuracy. With 13+ years of IT experience, primarily in the healthcare domain, I have a deep understanding of HR business processes, requirement analysis, and process optimization. My expertise spans software analysis, quality assurance testing, and validation of web, Windows, client/server applications, and databases in healthcare applications. I am proficient in all phases of the Software Development Life Cycle (SDLC) and Quality Assurance (QA) Life Cycle, focusing on functionality, usability, and reliability. I am ISTQB-certified and hold certifications in American Health Care Management and Python Data Structures, reflecting my commitment to continuous learning and professional growth. My goal is to leverage my expertise to optimize business processes, enhance employee experiences, and drive innovation in HCM solutions.
