

Felix Arnoldo

Bizagi Consultant

1528 Daughtery St, Houston, TX, 77029 | 6153076631 | felixarnoldo8080@gmail.com

SUMMARY

Experienced Bizagi Consultant with expertise in designing and developing business process management solutions using **Bizagi BPM Suite**. Solid experience in **Bizagi Studio** and **Bizagi Modeler**, translating complex business requirements into efficient IT solutions. Strong analytical skills, adept with **SQL**, **REST/SOAP APIs**, and API integrations to streamline processes. Proven track record in debugging, testing, and stakeholder collaboration, resulting in optimized deployment strategies and enhanced user experiences.

SKILLS

BPM Tools:	Bizagi Studio, Bizagi Modeler, BPMN, workflow automation
Integration & APIs:	REST APIs, SOAP, SQL, system integrations
Technical Documentation:	Technical writing, application deployment, stakeholder management
Testing & Debugging:	Software testing, debugging, data model design
Analysis & Modeling:	Requirements analysis, business process modeling, data modeling

PROFESSIONAL EXPERIENCE

Digital Suits, RemoteSeptember 2023 – January 2026

A digital consultancy specializing in process automation and optimization using cutting-edge BPM tools for global clients.

Senior Bizagi Consultant

- Architected end-to-end BPM solutions using **Bizagi BPM Suite**, processing 2K workflows daily and reducing manual effort by automating 1.5K hours of repetitive tasks monthly.
- Engineered complex integrations between **Bizagi** and external systems via **REST** services, enhancing cross-system data flow for 4 client projects.
- Constructed reusable templates and components for **Bizagi**, standardizing forms and rules across 15 client solutions, thereby reducing development time by 200 hours per project.
- Orchestrated comprehensive testing plans and scenarios, reducing deployment downtimes from 8 hours to 90 minutes across 6 client applications.
- Coded innovative business rules in **Bizagi Studio**, optimizing decision-making speed and accuracy for 5 enterprise clients.
- Formulated and executed application deployment strategies, ensuring seamless rollouts for 10+ systems with zero critical issues.
- Documented solution designs and configurations extensively, providing clear guidelines that improved onboarding process efficiency for new team members significantly.
- Directed stakeholder management sessions, collecting and analyzing feedback across 20 meetings to refine process designs and implementations.
- Integrated **SOAP** APIs for real-time data retrieval, serving 1K concurrent users with improved data accuracy.
- Refactored existing Bizagi solutions, optimizing database query performance, sharpening response times from 5s to 300ms for 10 active processes.

ATeam Soft Solutions, Remote

October 2016 – August 2023

A vibrant tech company focused on delivering high-quality BPM and enterprise solutions to an international client base.

Bizagi Developer

- Designed dynamic workflows using **Bizagi Modeler**, improving operational efficiency by 50 hours per process weekly in 8 client applications.
- Configured custom rules and forms in **Bizagi**, achieving a seamless user experience and SSO integration for 3 major clients.
- Implemented RESTful web services to facilitate real-time data exchanges, improving system interoperability across 12 cross-functional applications.
- Automated reporting pipelines, leveraging **SQL** and **cloud services**, delivering insightful analytics to business leaders within 10 minutes post data capture.
- Authored comprehensive technical documentation for implemented solutions, supporting knowledge transfer and sustained operational excellence.
- Diagnosed and rectified technical issues within deployed BPM solutions, reducing incident resolution time from 2 hours to under 15 minutes across live environments.
- Programmed database models and optimized query logic, enhancing data access speeds across 5 key client applications.
- Validated test scripts and deployment plans, ensuring zero critical defects during go-live events for 6 successful projects.
- Exported and reported analysis findings to stakeholders, driving continuous improvement and fulfilling evolving business needs across 5 domains.
- Presented optimized BPM solutions to clients, focusing on value-driven outcomes and fostering strong business-IT alignment.

Jade Global, Remote

January 2016 – September 2016

A global enterprise technology company providing comprehensive IT services and BPM consultancy.

Junior Bizagi Consultant

- Supported the configuration of process models and data structures within **Bizagi**, ensuring alignment with evolving business requirements.
- Investigated and resolved user issues, enhancing application performance for 2 new implementations with zero prolonged service interruptions.
- Participated in stakeholder workshops, collecting detailed requirements, and translating them into actionable Bizagi configurations.
- Assisted in integrating third-party APIs, facilitating cross-platform data synchronization across 4 enterprise-grade solutions.
- Authored training materials for business users and IT teams, promoting understanding and adoption of Bizagi functionalities.
- Assisted in testing phases to verify system integrity and alignment with business expectations, leading to successful application launches.
