

PROFILE

Strategic ServiceNow Solution Architect with over 18 years of experience leading complex, enterprise-grade digital transformations.

Recognized as a Trusted Advisor for high-stakes banking media and government sector clients, specializing in architecting scalable solutions across CSM, HRSD, ITOM, and ITSM modules.

Expert in maintaining Out-of-the-Box (OOB) integrity while delivering advanced integrations and AI-driven automation. Proven track record of leading technical teams through greenfield implementations and large-scale platform upgrades using NowCreate and best practices.

CORE COMPETENCIES & TECHNICAL SKILLS

- **ServiceNow Expertise:** CSM, HRSD, ITOM (Discovery, Event Management), ITIL, CMDB, SPM, GRC, ATF, Performance Analytics.
- **Emerging Tech:** NowAssist, AI Agents, Predictive Analytics, Virtual Agent.
- **Architectural Leadership:** Platform Governance, Integration Hub, Solution Design, Discovery to Delivery Oversight, Technical Mentoring.
- **Integrations:** REST/SOAP APIs, Workday, Okta (SSO), SailPoint, Azure AD, Boomi, Slack, Power-BI.
- **Development & Tools:** JavaScript (Advanced), Node.js, Angular, PowerShell, Git/GitHub, Jenkins CI/CD.

VIRTUSA – CITI BANK [SERVICE NOW ARCHITECT]

July 2024 – Present

Full Time

- **Platform Strategy & Architecture:** Acting as the primary Solution Architect for a global banking client, defining the architecture blueprint and roadmap for ITOM and CSM transformation aligned with business objectives.
- **Governance & Best Practices:** Established a "Center of Excellence" (CoE) to enforce coding standards, security compliance, and architectural governance, ensuring 99.9% availability for critical operations. Participating in and leading architectural governance to ensure solution integrity and the preservation of OOB functionality
- **Complex Integration Excellence/Leadership:** Engineered enterprise-grade data pipelines using Integration Hub to connect ServiceNow with Core Systems, creating a "Single Source of Truth" for customer data.

Coordinating with external system resources to define and deploy complex integrations (REST/SOAP) and custom APIs.

- **Performance & Risk Mitigation:** Architected the lifecycle for instance cloning, patching, and performance tuning, directly managing technical escalations and design decisions.
- **Technical Direction & Mentorship:** Providing day-to-day technical direction and mentoring to a multi-disciplinary team of senior developers, and testers.
- **UAT & Hypercare:** Leading as a technical point of contact during User Acceptance Testing (UAT) and leading the initial hyper care period post-go-live.
- **Pre-Sales:** Collaborating with sales teams to build prototypes and "Proof of Concept" (POC) demos.

VSOFT CONSULTING - WARNERSBROS DISCOVERY [SERVICE NOW ARCHITECT]

August 2023 – July 2024

Contract

- **Innovation & Technical Delivery:** Led the design and rapid prototyping of a custom Catalog Item Framework, reducing "time-to-market" for service requests by 40%.

TRAINING

HRSD, Performance Analytics, SPM, Release Management, Asset Management, Field Service Management

TOOLS / TECHNOLOGY

- ServiceNow (ITSM, HRSD, ITOM, Discovery, PA, Integration, Integration Hub, CSM, CMDB, ATF)
- SAP Hybris
- Java / J2EE
- Scripting
- Jira/GitHub
- CSS
- HTML
- JavaScript
- Jenkin CI/CD
- Relational Database/SQL (wide variety of SQL client tools)

AWARDS

- Outstanding Performance Award [2022]
- Excellent Contribution Award [2021]
- Applause Award [2021]
- Excellent Contribution Award [2020]
- Applause Award [2020]
- Applause Award [2019]
- Applause Award [2018]
- Applause Award [2017]

EDUCATION

Master's In computer application

IGNOU, New Delhi India 2007 – 2010

Bachelor's In computer application

IGNOU, New Delhi India 2002 – 2007

CERTIFICATION

- ITIL
- ServiceNow Discovery
- ServiceNow CAD
- ServiceNow ITSM
- ServiceNow Admin
- Java

SERVICENOW MICRO CERTIFICATIONS

CMDB, ITOM, CSDM, Scripting, Event Management, CSM, SPM

- **Team Leadership:** Managed a team of developers in an Agile environment, overseeing sprint planning, code reviews, and technical delivery to ensure scalable solutions.
- **Enterprise Integrations:** Architected bidirectional integrations with Workday, Slack, and Tenable, streamlining onboarding and security incident response processes.
- **Stakeholder Management:** Served as a trusted advisor to business units, translating complex requirements into OOTB-centric technical solutions to minimize technical debt.
- **UAT & Hypercare:** Lead as a technical point of contact during User Acceptance Testing (UAT) and leading the initial hyper care period post-go-live.

SK-HYNIX [SERVICE NOW ARCHITECT]

Sep 2022 – Aug 2023

Full Time

- **ITOM Implementation:** Spearheaded the adoption of ServiceNow ITOM (Discovery & Event Management), achieving a 20% improvement in operational efficiency through automated incident resolution.
- **Security Architecture:** Redesigned ACLs and data policies to remediate critical platform vulnerabilities, ensuring strict adherence to security standards.
- **Mentorship:** Conducted "Lunch and Learn" sessions to upskill junior developers on Flow Designer and Next Experience UI, fostering a culture of continuous learning.
- **Technical Direction & Mentorship:** Providing day-to-day technical direction and mentoring to a multi-disciplinary team of senior developers, developers, and testers.
- **UAT & Hypercare:** Leading as a technical point of contact during User Acceptance Testing (UAT) and leading the initial hyper care period post-go-live.

DELOITTE [SENIOR CONSULTANT / ARCHITECT]

Sep 2016 – Sep 2022

Full Time

- **Consulting Excellence:** Delivered high-impact ServiceNow transformations for multiple enterprise clients, managing the full SDLC from "Workshop to Go-Live."
- **Greenfield & Brownfield Implementations:** Delivered high-impact end-to-end ServiceNow implementations for enterprise clients, managing the full SDLC from "Workshop to Go-Live."
- **CSDM & CMDB Strategy:** Led large-scale CMDB remediation projects, establishing CSDM standards to align IT assets with business capabilities.

SKILLS

INTEGRATIONS

- **LDAP:** ServiceNow and Active directory integration for active user sync
- **SSO:** Single Sign On integration with OKTA.
- **SailPoint:** Integration with ServiceNow to manage active entitlement
- **Workday:** Sync daily HR feed to maintain the HR Profile within ServiceNow platform.
- **Active Directory:** Integration to remediate of deleted users within AD
- **RPA BOT/Boomi:** Event based Incident and HR Case creation within ServiceNow platform.
- **JMAF/INTUNE:** ServiceNow integration through Graph Connector to maintain the active assets stocks and assignments.
- **Moveworks BOT:** Integrated MV (Violet) to heavily offload the employee communication on various ServiceNow fulfillment activities.
- **AutoSys/AutoWatch:** Periodic outbound data feed integration to export the secured data to internal system within secured environment
- **MSTeam:** Integrated MSTeam with ServiceNow to exchange the automated information over the Incident/Problem/Case.
- **Solution Design:** Designed major architectural components for CSM and eCommerce solutions, including custom widget development and middleware integrations.
- **IT Transformation:** Led large-scale CMDB remediation projects, establishing CSDM standards that aligned IT assets with business capabilities.
- **Technical Direction & Mentorship:** Actively delivered day-to-day technical direction and mentoring to a multi-disciplinary team of developers, and testers.
- **UAT & Hypercare:** Lead as a technical point of contact during User Acceptance Testing (UAT) and leading the initial hyper care period post-go-live.
- **Pre-Sales & Discovery:** Collaborated with Sales teams to build prototypes and "Proof of Concept" (POC) demos that demonstrated platform value to prospective clients.

MINDTREE LTD [PROJECT LEAD]

2010–2016

Full Time

- **Architectural Design:** Orchestrated the end-to-end design and development of complex ServiceNow modules, ensuring scalable architecture that aligned with enterprise business requirements.
- **Scoped Applications:** Engineered and configured custom platform extensions and Scoped Applications to enhance OOTB functionality while maintaining platform upgradeability.
- **Service Catalog & Request Management:** Led the design of sophisticated Service Catalogs and Product Offerings, utilizing advanced data ingestion techniques to automate the lifecycle of catalog items.
- **Data Foundation & CMDB:** Customized CI (Configuration Item) classes and product attributes using complex relational mapping to ensure the CMDB accurately reflected business-critical service dependencies.
- **Automated Data Sync:** Architected and implemented custom data synchronization jobs to handle high-volume attribute updates, ensuring data integrity across disparate platform environments.
- **Advanced Workflow Design:** Developed multi-level approval workflows for Product Content Management (PCM), leveraged workflow to streamline governance and reduce manual processing time.
- **Service Portal & CMS:** Designed and deployed responsive Service Portal pages using custom widgets, templates, and CSS, establishing a standardized global header/footer architecture for a unified user experience.
- **Security & Identity (IAM):** Integrated LDAP and SSO protocols to enable secure, role-based access control (RBAC) for administrative and super-user modules.

- **Workflow Engine & Notifications:** Leveraged the ServiceNow Process Engine and Notification system to trigger context-aware email communications and automated alerts based on system events.
- **High-Volume Data Loading:** Implemented incremental data import strategies and Transform Maps to manage large-scale loading of product and configuration data.
- **Integration Hub & API Development:** Engineered custom SOAP and REST integrations, incorporating third-party extensions into the ServiceNow framework to facilitate seamless data exchange.
- **External Tool Orchestration:** Successfully integrated high-impact third-party tools (e.g., Omniture, Trip Advisor) using Integration Hub and API keys to enrich platform data with external intelligence.

SAPIENT/H&M [SOLUTION ENGINEER]

2010–2010

Contract

INTELECHY SYSTEM [SOLUTION ENGINEER]

2007–2010

Full Time
