Summary

ERP Testing Expert | Certified TOSCA Automation Specialist | Workday Reporting With over eight years of experience in ERP testing, I currently serve as a ERP QA Lead professional at Federal Organisation , specializing in delivering high-quality, reliable software solutions. I am certified in TOSCA Automation by Tricentis, a leading provider of testing tools and frameworks, and have extensive expertise in testing PeopleSoft using PeopleSoft Test Framework (PTF), Oracle, and Workday systems. Key Strengths: • Leadership in Testing Projects: Proven ability to lead and manage complex software testing initiatives, ensuring alignment with end-user requirements and organizational goals. • Mentorship & Collaboration: Experienced in mentoring and training junior testers while fostering collaboration across cross-functional teams and stakeholders. • Technical Expertise: Skilled in designing and executing test strategies, leveraging automation tools to enhance efficiency, and ensuring seamless system integration. I am passionate about driving process improvements and delivering solutions that enhance HR and financial processes through ERP HCM/FIN applications. By combining technical proficiency, leadership skills, and a commitment to excellence. Always eager to take on new challenges and expand my expertise, I look forward to connecting with professionals who share my dedication to quality and innovation in ERP systems. Feel free to tweak further based on your preferences!
