SUMMARY

Results-driven ETL and DataHub Consultant with 4+ years of experience in designing, developing, and optimizing data integration solutions in the Property & Casualty Insurance domain. Strong expertise in Guidewire DataHub and InfoCenter implementation, SAP BODS ETL development, SQL optimization, and cloud-based data migration. Good knowledge of Guidewire PolicyCenter and ClaimCenter. Proven ability to lead deliverables, collaborate with cross-functional teams, and support enterprise data initiatives.

SKILLS

- ETL Tools: SAP BODS
- Databases: Microsoft SQL Server, PostgreSQL, Oracle
- Guidewire: DataHub, InfoCenter
- Domain: Property & Casualty Insurance, PolicyCenter, ClaimCenter
- Cloud & Tools: AWS, AWS CLI
- Ticketing Tools: JIRA, ServiceNow
- Certifications: Guidewire DataHub and InfoCenter – Elysian

PROFESSIONAL EXPERIENCE

Consultant – Capgemini Technology Services | Hyderabad | 05/2025 – Present

- Working on Guidewire DataHub Cloud project for Personal Lines (Common Entities, Personal Auto, Homeowners) in AWS Cloud platform.
- Designed and developed ETL jobs using SAP BODS for DataHub implementation.
- Set up repositories across cloud regions and on-prem DEV servers using AWS CLI and BODS built-in functions.
- Contributed to development of Common Entities, Personal Auto, and Homeowners entities.
- Developed the Monthly, Weekly, and Daily extract reports.
- Supported DataHub upgrade from version 10.5 to 10.6 enabling DataHub-Cloud EOR functionality.
- Trained new joiners (NGTs) on DataHub architecture and development.
- Performed unit testing, integration testing, and production support activities.

Senior Data Analyst – EY | Bengaluru | 10/2021 – 05/2025

- Worked as ETL Developer in Guidewire DataHub and InfoCenter implementations.

- Extracted and loaded data from Guidewire source systems into DataHub and InfoCenter.
- Prepared and executed unit, integration, and end-to-end test cases.
- Improved job execution performance through SQL tuning and optimization.
- Participated in DataHub migration to Enterprise Data Warehouse.
- Involved in SAP BODS and IPS upgrade project (version 4.2 to 4.3).
- Handled multiple production deployments ensuring smooth releases.
- Took ownership of assigned deliverables ensuring timely completion.
- Supported resource planning and resolved technical blockers within the team.

PROJECTS

Project 1: Guidewire DataHub Cloud Implementation (Personal Lines)

Tools: SAP BODS, AWS, PostgreSQL, Oracle

- Developed ETL pipelines for DataHub Cloud implementation.
- Worked on OOTB entities and Personal Auto data models.
- Managed repository setup across cloud and on-prem environments.
- Supported version upgrades and ensured smooth migration.

Project 2: Guidewire DataHub & InfoCenter Implementation

Tools: SAP BODS, SQL Server

- Implemented DataHub and InfoCenter for insurance clients.
- Designed ETL mappings and transformation logic.
- Performed data validation, reconciliation, and testing support.
- Improved performance through query optimization.
- Handled multiple production downstream extracts ensuring accurate and timely data delivery.

EDUCATION

Bachelor of Engineering – Electrical and Electronics
Guru Nanak Dev Engineering College, Bidar, India
