PROFESSIONAL SUMMARY

Versatile operations leader with 10+ years of supervisory experience across both profit and non-profit healthcare sectors, SaaS, and customer service call center industries. Vast experience in credentialing and revenue cycle management, working with all major insurance carriers, Medicare, and Medicaid to ensure seamless provider enrollment and maximize reimbursement. Skilled in leading cross-functional teams, enhancing provider and patient engagement, and implementing data-driven solutions for operational efficiency. Committed to developing high-performing teams and aligning operations with industry best practices through staff development and strategic recruitment initiatives for long-term success.

PROFESSIONAL EXPERIENCE

THE MINDFLOWER GROUP (*Fully Remote*), Washington D.C.

November 2024 – Present

The MindFlower Group is an all-virtual behavioral health organization with over 70 providers specializing in providing online talk therapy, primarily for Medicaid and self-pay patients in Texas, North Carolina, and Washington D.C.

Program Manager (Contract)

- Created the Provider Audit Roster in collaboration with the operations team, designing a comprehensive tool to monitor key quality measures and track the progress of all potential provider escalations across perspective patient panels until fully resolved.
- Developed a comprehensive Standard Operating Procedures (SOP) manual by shadowing providers and operations team members to gain in-depth knowledge of existing workflows and processes, ensuring consistency and efficiency across the organization.
- Built and customized the organization-wide Trainual platform, integrating a newly developed Standard Operating Procedures (SOP) manual, revised job descriptions for all positions, and existing training materials for organizational software and applications, ensuring standardized processes and seamless onboarding across all departments.
- Introduced a new workflow for daily tracking and monitoring of missed appointments, reducing the no-show rate from 24% to 19% and improving overall practice productivity and provider efficiency
- Partnered with the Chief Operating Officer and Chief Wellness Officer to optimize provider onboarding and ensure ongoing provider compliance for credentialing and continuing education.

BLUEWAVE, INC. (*Fully Remote/Hybrid Settings*), Atlanta, GA

January 2019 – November 2024

A software as a service (SaaS) platform and web hosting provider specializing in business management solutions for service-based companies, offering scheduling, billing, and client communication tools.

Operations Project Manager (Permanent and Contract)

- Managed full lifecycle projects for platform enhancements and process improvements using Lean Six Sigma methodologies. Defined project requirements, coordinated with IT, customer support, and leadership, and optimized scheduling, billing, and payments workflows to increase efficiency and reduce errors.
- Built cross-functional teams to execute AI-driven automation initiatives, overseeing project planning, risk management, and performance tracking to enhance system scalability, streamline client onboarding, and reduce payment processing errors.
- Directed daily operations for a web-based platform serving 250+ service-based businesses nationwide, ensuring seamless scheduling, billing, and payment processing for thousands of end users.
- Achieved a 96% client retention rate and Net Revenue Retention (NRR) exceeding 100%, driving revenue expansion through optimized subscription-based billing models and customer success strategies.
- Managed client onboarding and user training, ensuring efficient software adoption for business owners and their employees, improving workflow automation and operational efficiency.

- Led IT system administration, overseeing server management, system updates, and data security protocols to ensure 24/7 uptime.
- Developed and enforced best practices for credentialing access within the platform, managing login security and role-based access control.
- Resolved complex client escalations related to IT, billing, and customer service, acting as the primary liaison between stakeholders, executive leadership, and technical teams.
- Optimized financial processes of subscription-based billing model to ensure maximized financial performance.

WAKE HEALTH SERVICES INC., Raleigh, NC

March 2015 – December 2018

Director of Centralized Services

- Led the centralization of client-facing operations across eight clinics, consolidating the call center, referrals, drug assistance program, medical records, and credentialing into a single, high-efficiency main campus, reducing administrative redundancies by 30%.
- Optimized call center performance, improving response times by 40% and reducing dropped calls by 25%, leading to increased patient satisfaction and operational efficiency.
- Implemented standardized referral workflows, decreasing processing time by 35% and enhancing coordination between providers, resulting in improved continuity of care.
- Overhauled the drug assistance program, increasing patient enrollment by 20% and securing additional funding sources to expand access to essential medications.
- Spearheaded a credentialing system upgrade, cutting provider onboarding time by 50%, ensuring faster service delivery and compliance with regulatory standards.

Practice Administrator

- Led and developed a team of 35+ clinical and non-clinical staff, improving performance and retention by 60%.
- Optimized scheduling to reduce overtime costs by 70% improving annual budget year over year.
- Streamlined EHR workflows, reducing documentation time by 30% improving efficiency and patient experience.
- Increased provider productivity by 25%, reduced no-show rates by 40%, and increase patient encounters by 25%.
- Coordinated interviewing, hiring, and onboarding for all clinical, non-clinical, and office staff members.
- Mitigated patient grievances by providing the highest quality customer service while ensuring the most favorable outcomes without compromising the integrity of the organization's superior standard of care.
- Conducted monthly staff meetings and weekly team huddles to maximize engagement of all staff and providers.

MEDLINK GEORGIA, Colbert, Georgia

January 2013– February 2015

Senior Practice Manager

- Managed 20+ clinical and non-clinical staff for multiple practice sites, ensuring operational efficiency and staff engagement.
- Oversaw financial operations and budget implementation for cost-effective practice management.
- Optimized utilization of the NextGen improving provider workflow and administrative accuracy.
- Spearheaded community outreach initiatives, health fairs, and seminars increasing awareness and accessibility.
- Implemented scheduling improvements to maximize availability and increase provider productivity by 20%.
- Facilitated meetings with providers and office staff to foster collaboration and enhance team performance.
- Resolved provider concerns and escalations timely ensuring strong provider-patient relationships.
