PERFORMANCE TEST ENGINEER

"Driven to ensure delivery of robust and compliant software through expert testing strategies and automation."

Experienced Performance Test Engineer with over 10 years in software testing, specializing in both automated functional and non-functional testing. Proven expertise in **Load, Stress, and Scalability testing** to ensure systems perform reliably under varying conditions. Skilled in creating comprehensive test plans and test designs, defining test scope, executing end-to-end test cycles, triaging defects, and maintaining regression test suites. Adept at generating test data, collaborating across agile teams, and clearly communicating test results to drive business outcomes. Strong background in DevOps environments, test automation, and cloud-based systems. Dedicated to delivering software tests that meet functional, performance, and compliance standards.

CORE COMPETENCIES

- | | | |
|-----------------------------------|------------------------|---------------------------------------|
| ■ Analytical Thinking | ■ Architecture | ■ Stakeholder Management |
| ■ Test Application Development | ■ Collaboration | ■ Technical Test Strategy Development |
| ■ Performance / Automation | ■ DevOps Practices | ■ Test Solution Delivery Process |
| ■ Test Engineering | ■ Test Solution Design | ■ Agile Practices |
| ■ Test Data Design & Conditioning | ■ Influence | ■ Quality Documentation & Reporting |

TECHNICAL EXPERTISE

Languages & Tools: Java, JavaScript, Python, GitHub/GitLab

Automation & Performance: JMeter, Blazemeter, Loadrunner, k6, RPT, Selenium, Robot Framework, Postman, Rest-Assured

CI/CD & DevOps: Kubernetes, Jenkins, GitHub Actions, AWS CodePipeline, Docker, Azure Devops

Monitoring: Grafana, AppDynamics, Dynatrace, AWS CloudWatch, Kibana, Splunk, Jaeger

Cloud & Infrastructure: AWS (S3, Lambda, EC2, CodeArtifact), Linux, Azure

Databases: DB2, MySQL, DynamoDB, MongoDB

Test Management Tools: Jira, RQM, RTC, ClearQuest, Azure DevOps

Languages: Portuguese, English

PROFESSIONAL EXPERIENCE

Confidential – SAP S/4HANA Migration - Brazil (remote)

Performance Test Consultant | Dec 2024 – Present

- Led performance testing for the global SAP S/4HANA migration at one of the largest mining companies in the world.
- Defined and executed test scenarios for finance, procurement, and supply chain modules, ensuring compliance and accuracy of migrated data.
- Built and executed performance and automated test suites across multiple SAP environments.
- Coordinated test data preparation and supported stakeholder communication across Brazil and US teams.

Globant (Client: FIFA+) | São Paulo, Brazil

Performance Test Engineer | Jul 2024 – Dec 2024

- Created automated test scripts using k6 to validate streaming services under concurrent user load.
- Contributed to agile story refinement, ensuring testable acceptance criteria were in place.
- Executed automated test suites in CI/CD pipelines and analyzed test results for performance tuning.

- Participated in defect triage and provided feedback for continuous improvement.

Zup Innovation (Client: Itaú Unibanco) | São Paulo, Brazil

Performance Test Engineer | 2021 – Jun 2024

- Delivered reliable performance metrics by designing and executing tests for credit card applications on AWS infrastructure.
- Created automated and manual test cases, aligned with business-critical SLAs and regulatory expectations.
- Generated test data and supported consistent test execution across test cycles and builds.
- Reported performance insights to management and contributed to technical improvements across microservices.

IBM | Hortolândia, Brazil

QA & Technical Specialist | 2011 – 2021

- Led the creation of the performance testing capability from the ground up, supporting global enterprise users.
- Developed detailed and reusable test cases covering business-critical functional and non-functional requirements.
- Planned and executed performance, integration, and regression tests for SAP, databases, and backend services.
- Reviewed test coverage with SMEs, triaged defects, and ensured accurate reporting across global teams.

EDUCATION AND CERTIFICATIONS

Postgraduate Certificate in Master in Business Transformation (MBT), ESPM, São Paulo, Brazil

Postgraduate Certificate in Software Engineering with Emphasis in Service-Oriented Architecture, IBTA, Campinas, Brazil

Associate Degree in Analysis and Systems Development, IBTA, São José dos Campos, Brazil

ISTQB Certified Tester Advanced Level - Test Manager, ISTQB

ISTQB Certified Tester Advanced Level - Test Analyst, ISTQB

IMTQN Certified Mobile Application Tester, GAQM

Professional Certificate - IBM New Collar: Customer Engagement Specialist, Coursera/IBM

ITIL Foundation Certificate in IT Service Management, EXIN
