PROFESSIONAL SUMMARY

DevOps Engineer with 4+ years of experience in AWS cloud infrastructure, automation, and CI/CD. Expertise in Infrastructure as Code (Terraform/Cloud Formation), containerization (Docker) and orchestration (Kubernetes/EKS). Proven track record of improving deployment efficiency and reliability through automated pipelines, and ensuring secure, compliant cloud operations in healthcare environments. AWS Certified DevOps Engineer – Professional with hands-on production experience in monitoring, logging, and incident response.

SKILLS

- **Cloud Platforms:** AWS (EC2, S3, IAM, VPC, RDS, ECS/EKS)
- **CI/CD Tools:** Jenkins, GitHub, GitLab
- **Infrastructure as Code:** Terraform, Cloud Formation, Ansible
- **Containerization & Orchestration:** Docker, Kubernetes
- **Monitoring & Logging:** Cloud Watch, Prometheus, Grafana, Data dog
- **Configuration Management:** Ansible
- **Scripting Languages:** Bash, Python
- **Operating Systems:** Linux
- **Version Control:** Git

EXPERIENCE

AWS DevOps Engineer, Tata Consultancy Services

Feb 2022 – Present

- **Constructed** AWS infrastructure with Terraform for scalable cloud deployments.
 - **Spearheaded** Docker and Kubernetes/EKS deployments for resilient applications.
 - **Streamlined** automation with Ansible, reducing manual errors.
 - **Orchestrated** CI/CD pipelines using Jenkins and Git to accelerate releases.
 - **Fortified** VPC security and network architecture for robust isolation.
 - **Instituted** monitoring with Cloud Watch, Prometheus, and Grafana for uptime.
 - **Strengthened** IAM governance to enforce least-privilege access.
 - **Optimized** workflows to improve deployment speed and stability.
 - **Supervised** Linux servers, patching, logging, and performance tuning.
 - **Created** backup and disaster recovery to ensure continuity.
 - **Engineered** Bash/Python scripts for automation of routine operational tasks.
 - **Optimized** cloud costs by right-sizing resources and eliminating unused assets.
 - **Reduced** cloud costs through resource optimization and clean-up.
 - **Performed** incident management and root cause analysis (RCA).
 - **Collaborated** with cross-functional teams to define SLAs and improve service reliability.
-

PROJECTS

E-Commerce / Retail

- **Architected** CI/CD pipelines using Jenkins, GitHub, Maven, Docker, Ansible, and Terraform for standardized, automated releases.
- **Constructed** scalable AWS infrastructure (EC2, VPC, RDS, ECS/EKS, ELB) using modular Terraform.
- **Enabled** one-click deployments across dev, staging, and production through automated provisioning and release workflows.
- **Dockerized** micro services and managed ECS/EKS deployments for high availability and resilience.
- **Engineered** Python/Boto3 automation to eliminate unused AWS resources, reducing cloud costs.
- **Established** monitoring and alerting with Cloud Watch and Data dog for proactive incident response.

Medicare

- **Architected** a Kubernetes-driven CI/CD ecosystem using Jenkins and Terraform to automate infrastructure provisioning and deployments.
- **Created** highly available Amazon EKS clusters across multiple Availability Zones to ensure fault tolerance and continuity.
- **Configured** Kubernetes resources (Deployments, StatefulSets, Services, Ingress, ConfigMaps, Secrets, HPA) for scalable micro services.
- **Established** rolling upgrades and self-healing via readiness probes to maintain platform resilience.
- **Established** centralized logging using the EFK stack and deployed observability with Prometheus and Grafana for proactive monitoring.
- **Secured** cluster operations through IAM role mappings, Kubernetes Secrets, and network policies, ensuring compliance and service stability.

EDUCATION

D.N.R College of Engineering and Technology (JNTUK University)
Bachelor Technology – 75%

Aug 2017- Jul 2021

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02)
- AWS Certified Developer– Associate
- AWS Certified DevOps Engineer – Professional

DECLARATION

I am confirming that all information provided above is accurate to the best of my knowledge.
