Professional Summary

Experienced **Data Engineering and BI Consultant** with **over 10+** years of experience in designing, developing, and implementing robust data solutions across various domains. Proficient in SQL, SAP BO, BODS, SAP Analytics Cloud (SAC), Power BI, data integration, ETL, data modelling, and developing reports and dashboards that provide valuable insights.

Demonstrated ability to manage end-to-end data projects, from requirement gathering to deployment, ensuring data accuracy, consistency, and accessibility.

Qualification:

Bachelor of Technology (B.Tech) in CSE (Computer Science and Engineering) from IIIT-Nuzvid.

Technical Skills:

BO Tools	: Business Objects 4. x, SAC, Information Design Tool, Web Intelligence Rich Client, SAP BI Launch Pad, SAP Xcelsius Dashboard Designer, SAP HANA 2.x
Dashboard Tools	: Sap Analytics Cloud (SAC), Microsoft Power BI, Xcelsius Dashboard designer
ETL Tools	: SAP Business Objects Data Services 4.x
ERP's	: SAP ECC, Oracle Fusion Cloud Modules
Databases	: SQL Server 2008/2012, MySQL, Oracle, SAP HANA.
Operating Systems	: Windows, UNIX
Languages	: C, SQL, Python, Core Java
Data Modeling	: Star-Schema and Extended Star-Schema Modelling

Certifications:

- SAP_Certified_Application_Associate_Data_Integration_with_SAP_Data_Services_4_2
- SAP_Certified_Application_Associate_SAP_BusinessObjects_Business_Intelligence_Platform_4_2
- SAP_Certified_Application_Associate_SAP_HANA_2_0_SPS05

Data Engineering Expertise

- Expertise in the installation of data services, configuration of repositories, job servers, CMC configurations, and other administrative activities.
- Experienced in extracting data from SAP ECC, ODBC, Oracle Fusion, file systems, and various RDBMS systems.
- Dealt with different types of Sources (CSV files, Excel files, and XML files)
- Expertise in creating data stores, Flat files, Projects, Jobs, Workflows, Dataflows, Transformations, Scripts, and Functions.

- Expertise in Data warehousing concepts.
- Expertise in different types of error handling and debugging of the jobs.
- Expertise in multi-user development using Local and Central repositories.
- Hands-on Experience in Implementing SCDs, Job Scheduling, Full Load, Delta Load, and email configurations.
- Extensively worked on Data Integration and Platform transformations.
- Expertise in requirements gathering, data extraction, data quality, documentation, testing, troubleshooting, Implementations, Development, Migration, and production support.

SAP BI Expertise

Data Modelling:

- Having strong expertise in creating data models in Universe Designer (Information Design Tool).
- Strong understanding of Dimensional Data Modeling and star/ Snowflake schemas with Fact and Dimension tables.
- Expertise in creating complex Relational, OLAP, and Multi-Source Universes using Information design tool (IDT)/ Universe designer (UDT) using Joins, conditions, Filters, LOVs, cardinalities, Aliases, Contexts, Index Awareness, @Prompts, @Aggregate Awareness and resolving Join path problems like Loops and Traps.
- Experience in creating and managing Universe Column and Row level Restrictions in Universe.
- Performance tuning of reports using aggregate and index awareness functions.
- Expertise in writing various logics/formulas for ex: MTD, QTD, YTD, Last year, Rolling Months, etc.
- Expertise in creating business layer dimensions, measures, filters, parameters, List of values, and queries for data validation.

Reporting and Dashboards:

- Hands-on Experience in Business Objects SAP BOBI 4.0, 4.1, 4.2 & 4.3 environments.
- Experience with BO reporting tools (Web Intelligence, IDT, Xcelsius Dashboard Designer, and SAC).
- Expertise in developing reports from various sources like Freehand SQL, Excel, text, SAP HANA, and Universes.
- Created Ad-hoc and standard reports with Web Intelligence using functionalities such as Multiple Data Providers, Multi-Dimensional Analysis, Drill Analysis, Filters, Charts, Alerts, Breaks, Ranking, Sorting, LOV, Formulas, Variables, Sub Queries and Combined Queries (Union, Intersection & Minus).
- Expertise in the drill-down features by using the universe navigation paths.
- In-depth knowledge of Oracle and MS SQL Server. Proficient in coding SQL required for complex detailed data analysis.
- Experience in Creating, Publishing, and Scheduling reports using CMC.
- Hands-on Experience in CMC Operations (User creation, Folder rights, Access levels, Monitoring Servers, and Promotion Management).
- Experience on BO Migration from SAP BO XI3.x to 4.x.
- Hands-on experience in **SAP Analytics Cloud** and **Microsoft Power BI**.

Professional Experience:

Currently associated with **Kuwait Application Service Provider** as SAP Business Intelligence Consultant since May 2020 to till date.

Project #1

Client: Boodai Corp, (Kuwait Application Service Provider (KASP))

Role: BO/BODS Consultant

Duration: Jan 2019 to Till Date

Environment: SAP Business Objects BI Platform 4.2, Data Services 4.2, Information Design tool 4.2, Web Intelligence 4.2, Dashboard Designer 4.2, Oracle 12c, MySQL, SAC Dashboards (SAP Analytics Cloud).

Description: Kuwait Application Service Provider k.s.c.c. (KASP) is an certified Information Technology services company established in Kuwait in 1985. Originally established as Boodai Computer Co to serve the growing IT needs of Boodai Group and help align its IT with Business.

Responsibilities:

- Extracting data from Oracle Fusion Cloud to warehouse using SAP Data Services.

- Implemented Oracle Fusion user security in Information Design Tool as row level security.
- Developed Universes for different modules like GL, AR, AP, PPM, SCM.
- Developed the webi reports & dashboards for Finance, PPM, SCM and HCM modules.
- Worked on report debugging issues and created the webi reports based on FHS using complex sql.
- Developed the ad hoc reports for the business users audit requirements.
- Created the SAP Analytics Cloud (SAC) Finance dashboards for business needs.
- Responsible for Monitoring the month-end reports reconciliations.

Project #2

Client: best Al-Yousifi

Role: Data Engineer

Duration: Jan 2024 to Till Date

Environment: SAP ECC, SAP Business Objects BI Platform 4.3, Data Services 4.2, Information Design tool 4.3, Web Intelligence 4.3, MS SQL Server 2014, SAC Dashboards (SAP Analytics Cloud).

Description: Best Al-Yousifi is a reputed multi-brand consumer electronics retailer with a network of 22 stores and a strong online presence. Our customers can order all their favorite electronics from www.best.com.kw from the comfort of their homes or visit any of our conveniently located stores.

Responsibilities:

- Extracting data from SAP ECC to the warehouse using SAP Data Services.
- Working on ETL Jobs includes staging & data warehousing layers.
- Worked on Full data loads, delta loads, various scripts & job schedules.
- Implemented ECC security in the Information Design Tool as row-level security.
- Developed Universes for different modules like Sales, and Procurement.
- Developed the webi reports & dashboards for Sales, and Procurement modules.
- Worked on report debugging issues and created the webi reports based on FHS using complex sql.
- Creation and monitoring of the daily ETL and Reports schedules.
- Created the SAP Analytics Cloud (SAC) Finance dashboards for business needs.
- Responsible for Monitoring the month-end reports reconciliations.
- Handled the entire project single-handedly from requirement gatherings to go-live.

Project #3

Client: Jazeera Airlines, Kuwait.

Role: ETL and BO Reports Developer

Duration: Jan 2023 to Till date

Environment: SAP Business Objects BI Platform 4.2, Data Services 4.2, Information Design tool 4.2, Web Intelligence 4.2

Description: Jazeera Airways K.S.C is a Kuwaiti low-cost airline with its head office on the grounds of Kuwait International Airport in Al Farwaniyah Governorate, Kuwait. It is one of the entities under Boodai Corp, Kuwait.

Responsibilities

- Extraction of Data from different source files and Oracle cloud fusion using Data services.
- Developed the ETL jobs for the DataMart's to create the Datawarehouse.
- Involved in the designing and Building of Universes based on Oracle DB.
- Creating the Webi reports as per the specifications on top of Universe.
- Responsible to move completed Reports and Dashboard to Production environment.
- Scheduled reports using BI Launch pad and CMC for distribution to the end user.
- Involved in the monthly monitoring of the report's reconciliation.

Project #4(Consulting Work)

Client: ABK (Al Ahli Bank of Kuwait)

Role: BO Consultant

Duration: Jun 2018 to Dec 2018 (7 Months)

Environment: SAP Business Objects BI Platform 4.2, Information Design tool 4.2, Web Intelligence 4.2, Dashboard Designer 4.2, Oracle 12c, MySQL.

Description: Al Ahli Bank of Kuwait (ABK) is a retail and commercial bank located in Kuwait City, founded in 1967. The services are provided via 31 branches in Kuwait, 2 branches in the United Arab Emirates (Abu Dhabi and Dubai) and 39 branches in Egypt.

Responsibilities:

- Involved in the requirements gathering from business users.
- Involved in the designing and Building of Universe.
- Created the Webi reports as per the specifications on top of Universe.
- Worked on the report debugging issues which are raised by business.
- Responsible to move completed Reports and Dashboard to Production environment.
- Worked on complex FHS (Free Hand SQL) webi reports.

Project #5 (Consulting Work)

Client: AUB (Ahli United Bank of Kuwait)

Role: BO/BODS Consultant

Duration: Feb 2018 to Apr 2018 (3 Months)

Environment: SAP Business Objects BI Platform 4.2, Data Services 4.2, Information Design tool 4.2, Web Intelligence 4.2, Dashboard Designer 4.2, Oracle 12c, Mysql.

Description: Ahli United Bank Kuwait (AUBK) is a traditional bank founded in 1971, providing retail, private and corporate banking services with headquarters in Safat, Kuwait City.

Responsibilities:

- Extraction of Data from different source files using Data services.
- Creating and maintaining the Local and Central Repositories in Data Services.
- Involved in the designing and Building of Universe.
- Used different BO @functions like @select, @where, @Prompt, Custom Hierarchies ,LOVs
- Creating the Webi reports as per the specifications on top of Universe.
- Designed the Operational Master data dashboard in Xcelsius Dashboard designer.
- Responsible to move completed Reports and Dashboard to Production environment.

Project #6 (Consulting Work)

Client: GBK (Gulf Bank of Kuwait)

Role: BI Consultant

Duration: Nov 2017 to Jan 2018 (3 Months)

Environment: SAP Business Objects BI Platform 4.2, Information Design tool 4.2, Web Intelligence 4.2, Oracle 12c, MySQL.

Description: Gulf Bank is one of the banks in Kuwait with a broad offering of consumer banking, wholesale banking, treasury, and financial services. The Bank was founded in 1960, registered as a bank with the Central Bank of Kuwait and was listed as Gulf Bank on the Kuwait Stock Exchange in 1984.

Responsibilities:

- Migrated the business objects desktop intelligence reports to web intelligence reports using report conversion tools.
- Created new reports with free hand SQL logic.
- Involved in the designing, migrating and Building of Universes.
- Responsible to move completed Reports and Dashboard to Production environment.

Project #7

Client: NAPESCO, Petro Chemicals, Kuwait.

Role: Team Member

Duration: Oct 2015 to Dec 2017

Environment: SAP Business Objects BI Platform 4.1, Data Services 4.2, Information Design tool 4.1, Web Intelligence 4.1, Dashboard Designer 4.1, Sybase IQ 16.0

Description: National Petroleum Services Company (NAPESCO) as a private company offering pumping services to the Kuwait Energy Sector. NAPESCO has established itself as a leading provider of Upstream Oilfield Services including Cementing, Stimulation, Coiled Tubing, Nitrogen, and Downhole Service Tools.

Responsibilities

- Creating and maintaining the Local and Central Repositories in Data Services.
- Extracting data from SAP ECC to BODS using ABAP dataflows and RFC server.
- Implemented SCD's, Full Load, Delta Loads, Job Scheduling and email configurations.
- Involved in the designing and Building of Universes based on Sybase IQ.
- Developed and created classes with Dimension, Detail & Measure objects and Developed Custom hierarchies to support drill down reports.
- Creating Ad-hoc reports using Business Objects functionalities like Drill Down, Cross Tab, Report Linking and Dynamic Visibility.
- Working extensively with the major functionality of BO like Breaks, Sections, Ranks, Alerts, Variables, Formulas, Filters, Sorts, Query prompt, Input controls, Document links in WebI.
- Scheduled reports using BI Launch pad and CMC for distribution to the end user.
- Designing the Dashboard on top of Universe.
- Creating backup of LCMBIAR file to move completed Reports and Dashboards to Production environment using Promotion Management in CMC.
- Experience with all facets of Business Objects security including creating users, groups, access levels.
