Professional Experience

Business Analyst

BlackRock, Leawood, KS | Jan 2023 - Present

- Creating and reviewing business requirements, functional specifications, project schedules, documentation, and test plans using MS Project, MS Visio, and Rational Suite software.
- Performing GAP analysis around the identification of the business rules, business and system process flows, user administration, requirements, and assumptions.
- Analyzing the user problems, including automated and manual business processes, and documenting the business processes problems.
- Utilizing the Agile tool JIRA for managing the backlog and creating reports for Sprint meetings using Burndown charts and task boards.
- Creating defect tracking using JIRA and reviewing them in subsequent iterations of the application development process.
- Participating in the Sprint Planning and Sprint review meetings with the goal of finalizing the Sprint backlogs and verifying the sprint outputs.
- Gaining Business writing skills in writing project documentation such as Business Requirements Document (BRD), Functional Requirement Document (FRD), and Use Case Specifications.

Business Analyst

Fusion Software Technologies, India | Dec 2017 – May 2021

- Handled tasks like requirements gathering, designing, developing, and testing the production of the applications using the Agile model.
- Coordinated with the stakeholders to develop a test plan and conduct User Acceptance Tests (UAT) for application validation.
- Collaborated with diverse lines of business for developing an understanding of the application's cross-functional impact and devise a mitigation plan.
- Generated SQL queries for extracting data from the database to check the data for consistency.
- Performed Gap analysis for documenting the existing business process flows and derive requirements for the proposed functionalities.
- Expertise in maintaining RTM for requirement, design, and test validations.
- Developed use cases, created Screen Mockups, conducted Gap Analysis and Impact Analysis, SWOT analysis, Cost-Benefit Analysis, and Risk Analysis.
