Work Experience

Product Manager

Heyday - San Francisco, CA

March 2022 to Present

Heyday is AI based social network app that helps to find like-minded people in communities.

- Conducted market experiments in less than 2 months, including user interviews for customer insights and marketing campaigns for market feedback, shaping product development and business strategy.
- Led cross-functional international teams, validated business concepts and strategized GTM plans.
- Built the management organization from the ground up.

Co-Founder and Product Manager

A&M - digital studio - Москва

September 2018 to February 2022

- Spearheaded the development of a B2B oil-marketplace web platform, leading the project from inception to market. The platform achieved a return on investment (ROI) twice as quickly as initially projected, recovering costs within 6 months instead of 12.
- Launched an AI-based planning platform for a construction company, reducing the research time required by specialists from days to mere minutes.
- Led the development and launch of nerabotai.com, a crypto-trading bot that successfully managed a \$3 million cryptocurrency portfolio, generating up to 37% in monthly revenue
- Developed 'Unistroy AR,' a B2C application that enables the presentation of building concepts in AR

Product Manager

Technokratos - Казань

April 2017 to September 2019

- Launched a chatbot-based B2B service platform designed for corporate vehicle rentals, securing more than 100 corporate clients within the first quarter
- Boosted mobile bank Customer Satisfaction (CSAT) score from 2.5 to 4.5 within a span of 6 months, as evidenced by customer feedback and surveys and UX redesign
- Delivered the 'FIFA 2017 VR' app within the stipulated 4-month timeframe, as measured by the successful showcase of built objects in Kazan city for the FIFA Confederation Cup in 2017
- Developed an internal Blockchain-based voting platform for enterprise clients showcasing cutting-edge technological proficiency

SaaS Product Manager

Doc systems LLC - Казань

August 2012 to March 2017

- Facilitated a product transition from another company that involved a complete team replacement within a tight 2-month timeframe, and ensured zero service interruption. Additionally, by optimizing processes, exceeded the product revenue target, generating over \$1.3M
- Successfully managed and scaled 12 enterprise products portfolio including domains in BI, logistics, education, and internal web & mobile applications. Exceeded revenue targets by delivering \$2M in earnings
- Led cross-functional teams of over 20 professionals and fostered a culture of collaboration and high performance. Leveraged Agile methodologies within the team, resulting in a 10% improvement in project delivery timelines and enhancement in operational efficiency, with a reduction of 15% in resource wastage.
- Led SaaS analytical platform designed to streamline decision processes for management and directorial teams. Exceeded revenue growth \$500K in 2013 and \$1.5M in 2014.
- Boosted the Customer Satisfaction (CSAT) score from 3.5 to 4.6-star review rating for Citizen service mobile app by prioritizing customer satisfaction and utilizing user feedback
