SUMMARY

- Highly accomplished **UFT (Unified Functional Testing) Automation Lead** with 9+ years of experience specializing in designing, implementing, and maintaining robust Hybrid Automation Frameworks **with AI self-healing** capabilities across enterprise-scale applications, including desktop (WPF/Windows Forms) and web interfaces.
- Proven ability to lead Agile/Scrum initiatives, optimize development and testing lifecycles, and build collaborative team environments that achieve business and technical objectives.
- Expert in **UFT/QTP and VBScript and Excel Object Model for developing reusable, maintainable, and scalable test scripts.**
- Proven ability to integrate automated test suites with CI/CD pipelines (**Jenkins, Git**) and manage defects using **JIRA/ALM.**
- Combines strong hands-on technical skills with **Agile** practices and servant leadership to mentor teams, drive process improvements, and ensure 100% coverage of critical business workflows.
- Certified Scrum Master, Agile, and Project Management professional with additional specialization in Gen AI for Testers for embedding AI-driven solutions into QA.
- Recipient of 5 performance and excellence awards.
- Available for immediate joining and seeking new opportunities in QA Automation

SKILLS

Category	Skills & Tools
Automation Tools	UFT/QTP (Unified Functional Testing) , ALM/Quality Center, QF-Test.
Scripting Languages	VBScript (Expert) , SQL, Python (Playwright POC).
Frameworks	Hybrid Framework Architecture, Data-Driven Testing, Keyword-Driven Testing, Object Repository Management.
CI/CD & DevOps	Jenkins, Git, Bitbucket, GitHub Actions, Azure DevOps, JIRA, Xray.
Testing Techniques	Functional, Regression, E2E Testing, Database Testing (SQL Queries), Desktop/UI Automation (UIA/UIAPro) and AI Object identification.

EXPERIENCE

AUTOMATION TEST MANAGER | RxLogix, Noida, India 06/2025 – 11/2025

- Led a team of 7 automation engineers, enhancing frameworks for pharmacovigilance applications, resulting in a **90% improvement in regression testing efficiency** via AI self-healing integration.
- Designed and executed automation test scripts, providing 100% coverage for critical business workflows.
- Conducted Proof of Concept (POC) for Playwright with Python to evaluate next-generation cross-browser automation standards.

CONSULTANT | Wipro, Greater Noida, India 07/2023 – 06/2025

- Developed and implemented a **Hybrid UFT test automation framework independently from scratch**, providing technical guidance and support across the entire account.
- Successfully implemented a POC integrating GenAI tools with UFT's AI.Util object for enhanced script management and non-standard object identification (UIA/UIAPro).

TEST ANALYST | ITC Infotech, India 06/2021 – 06/2023

- Developed comprehensive **UFT and VBScript codes for E2E testing** and maintained UFT scripts for critical applications (Amadeus Software DCS CM).
- Contributed to CI/CD pipeline integration (Jenkins/Git) to automate weekly test runs and backend report generation, enhancing transparency.
- As a Scrum Master, removing 50+ obstacles and managed risks to ensure Agile.

SOFTWARE ENGINEER | Accenture, India 04/2020 – 06/2021

- Understand and analyse test requirements.
- Compiled required data to document test cases and conduct testing.
- Generated test batches, executed test script, and reported software defects.

CONSULTANT | Genpact, India 12/2018 – 04/2020

- Conducted functional testing and database validation using SQL and UFT for CME Group- EPS Projects.

EARLY CAREER (Tracxn Technologies & Randstad) 11/2015 – 12/2018

- Executed thorough functional and database testing for internal projects.

PROJECTS

1. PV Signal (RxLogix)

- **Technologies:** UFT, Excel, JIRA, Xray, SQL, Gen AI.
- **Role:** Led a 7-person team to optimize frameworks for pharmacovigilance and safety applications.
- **Achievement:** Improved regression efficiency by 90% by integrating AI self-healing capabilities.

2. Summit FT Automation (STATESTREET)

- **Technologies:** UFT, VBScript, Excel, Azure DevOps.
- **Role:** Enhanced and improved existing automation framework, adding customizable reporting.
- **Achievement:** Automated manual test cases and provided specialized training on UIA, UIAPro, and AI.Util object identification for non-standard Windows objects.

3. Starlims Automation POC (SGS)

- **Technologies:** UFT, Excel, GenAI.
- **Role:** Developed automation framework from scratch, exploring AI-driven solutions.
- **Achievement:** Successfully delivered a proof of concept with UFT and Excel integration per client requirements.

4. DCS CM (Amadeus Software)

- **Technologies:** Manual testing, UFT, VBScript, ALM, Jenkins, JIRA.
- **Role:** Improved and maintained UFT scripts, developed VBScript for E2E testing, and automated manual test cases.
- **Achievement:** Executed weekly test runs and generated backend reports, receiving 3 performance awards.

5. Microsoft Azure Cloud Migration (Halliburton)

- **Technologies:** UFT, ALM, TFS, SQL.
- **Role:** Executed E2E regression testing and stabilized UFT scripts during a critical migration.

6. EPS (CME Group)

- **Technologies:** UFT, SQL, Putty, Jenkins, JIRA.
- **Role:** Contributed to test plan documentation, derived test scenarios, and executed functional/regression testing, including database testing.

CERTIFICATION

- **Scrum Master**
- **Agile (Certified)**
- Project Management
- GenAI for Testers

EDUCATION

Bachelor of Engineering in Computer Science (2011–2015) - Bharati Vidyapeeth College of Engineering, Shivaji University

LANGUAGE

- Hindi
- English

ACHIEVEMENT

- ✓ Received 3 "Pat on the Back" awards for outstanding performance at ITC Infotech Ltd.
- ✓ Received "Rising Star" awards and an "Inspiring Performance" award at Wipro.
