PROFESSIONAL SUMMARY

Senior Windows Azure Cloud Engineer with 5+ years of experience designing, implementing, and supporting enterprise Windows infrastructure and Azure hybrid cloud solutions. Strong expertise in Windows Server administration, Active Directory, Azure IaaS, hybrid identity, and Infrastructure as Code. Proven ability to architect secure, scalable, and highly available cloud environments while supporting digital transformation initiatives.

TECHNICAL SKILLS

Operating Systems: Windows Server 2012/2016/2019/2022, Windows 10/11

Cloud Platform: Microsoft Azure (VMs, VNet, NSG, Load Balancer, Storage, Azure Backup)

Identity: Active Directory, Azure AD, Hybrid Identity, Group Policy

Infrastructure as Code: PowerShell, ARM Templates, Terraform (Exposure)

Virtualization: VMware vSphere, Hyper-V

Monitoring: Azure Monitor, Log Analytics, Performance Tuning

Security: Patch Management, OS Hardening, RBAC, MFA

Networking: DNS, DHCP, TCP/IP, VPN, ExpressRoute

DevOps Tools: Git, CI/CD Exposure

PROFESSIONAL EXPERIENCE

Senior Systems Engineer – Christus Health, TX

Jul 2024 – Present

- Architect and manage hybrid infrastructure environments integrating Windows Server with Azure cloud services.
- Deploy and manage Azure Virtual Machines, networking components, and storage solutions.
- Implement hybrid identity solutions using Active Directory and Azure AD.
- Automate infrastructure provisioning using PowerShell and ARM templates.
- Design disaster recovery strategies using Azure Backup and replication services.
- Perform system monitoring, patch management, and security hardening.
- Troubleshoot complex enterprise-level infrastructure issues.
- Collaborate with cross-functional teams to support cloud transformation projects.

Systems Engineer – Globe Life, TX

Dec 2022 – Feb 2024

- Managed Windows Server environments across enterprise infrastructure.
- Administered Active Directory including GPO, DNS, and DHCP configurations.
- Supported Azure cloud migrations and VM provisioning.
- Configured and maintained virtualized infrastructure using VMware.
- Implemented RBAC and secure access control policies.
- Conducted performance tuning and system optimization.
- Supported infrastructure automation initiatives.

Infrastructure Analyst – Cognizant (Novartis)

Mar 2021 – Jul 2022

- Supported enterprise Windows environments and virtualization platforms.
- Assisted in Azure resource configuration and cloud integration tasks.
- Managed user provisioning and directory services.
- Performed system patching and vulnerability remediation.

IT Support Engineer – Parle Agro

Mar 2019 – Feb 2021

- Provided Windows Server and desktop support.
- Assisted in network configuration and user administration.
- Maintained system documentation and operational procedures.

EDUCATION

2022 – 2024 Master of Science in Computer Science, Lamar University, Texas

2018 – 2021 Bachelor of Technology in Electrical & Electronics Engineering
