TOGAF certified Solution Architect with Accomplished and Transformational Professional with rich experience of 18+ years in Technical Architecture, Team Leadership, Full stack Development and Project Mgt. across Entertainment, Banking and Financial services, Insurance, Automotive and Manufacturing Industries. Executed various client-facing roles in software industry such as Architect, Product Consultant, Technical Lead, Delivery Lead & Full-Stack Developer for the client engagements in **Florida USA, Columbus, Ohio and Offshore**.

Technical Skills:

- **Technology**
 - .NET & .Net Core, SharePoint, OCR, RPA, WPF
- **Programming Languages**
 - C#, Python
- **Architecture and Design Patterns**
 - GoF Design Patterns, SOLID principles, Onion Architecture
- **Mobile**
 - Xamarin
- **Web**
 - ASP.NET MVC, Node JS, Nest JS, React JS, JavaScript
- **Windows Applications**
 - WPF, Winforms
- **OCR**
 - UI paths RPA, Abby Flexi Capture, Captiva Input Accel v6.5, v7.1 and V7.7
- **Testing Libraries**
 - N-Unit, X-Unit
- **Version Control Systems**
 - Bitbucket, Git, TFS, SVN, VSS
- **Services**
 - Microservices Architecture, WCF, REST APIs design, OpenAPI
- **ORM Libraries**
 - Entity Framework Core, N Hibernate, Dapper
- **Database**
 - SQL Server, Azure Cosmos DB, Azure SQL, Postgres SQL
- **Infrastructure**
 - Cloud – Azure Cloud(Log Analytics, Monitor, Blob, Devops, Service Bus, Logic apps), Google Cloud Platform (GCP)
- **Containerization**
 - Docker, Kubernetes
- **CI/CD Pipelines**
 - CI/CD pipelines configuration, Jenkins
- **Tools**
 - InfoPath Designer 2010, Docave Tool, Fiddler, SOAP UI, Quest Tool, ALM, Maximo 7.6, Confluence, Dialog flow, Postman, JIRA, Azure DevOps

Certificate and Professional Trainings:

- **TOGAF 9.2** Enterprise Architect certification
- **ABBYY** Flexi Capture & ABBYY Flexi Layout Studio Certified Specialist
- **Captiva 16.6** Administrator Certification
- **Microsoft .NET Framework 2.0** – Windows Based Client Development

- **Microsoft .NET Framework**-Application Development Foundation
- **Microsoft SharePoint 2010**, Application Development

Professional Experience

Solution Architect | Global Logic | Sep 2021- Till date

- Understanding and coordinating client's needs / enhancements, customization of product accordingly and consulting with technical team to provide solutions as per the delivery schedules.
- **Azure migration** of legacy .net applications and performance tuning.
- Migrating attachment data to **Azure Blob** storage and building tools.
- POC on **GenAI** technologies and **Metaverse** talent virtual onboarding applications.
- Client co-ordination and delivery ownership.
- Analysing complex functional & non-functional requirements, making appropriate design adjustments, providing effort estimates to support project management
- Release ownership on multiple applications.
- Developing enterprise level applications using **Microsoft Technologies, .NET Core, Nest.js, Microservices, SQL, Azure DevOps, Web API, React Js, RabbitMQ**
- Planning, designing, coding, analysing, and conducting test systems for applications; developing and executing unit/ basic/ functional test cases & framework
- Coordinating for checking project progress & outstanding issues and ensuring the quality & timeliness of the deliverables
- Developed Microservice Core platform and onboarded multiple independent applications.
- Worked on multiple RFEs, presentations and WBS.
- Identifying gaps in the projects and suggesting feasible solutions to the customer on day to day basis.
- Legacy applications upgradation on security and performance.
- **SSIS & SSRS** reports development.
- Providing technical support in the design and development of software applications; assisting in the development of new systems or enhancement of existing systems based on customer requirements
- Assisting in managing end to end of projects from the stage of initiation till monitoring & control and closure including planning, estimation & scheduling and updating information to all stakeholders

Technical Architect | Cognizant | Sept 2010- Aug 2021

Client – JP Morgan Chase | Columbus, Ohio USA

- Developing enterprise level applications using **Microsoft Technologies, .NET Core, Web API, SQL Server, Abby Flex capture and RPA**.
- Managing projects to successful completion under tight deadlines with high client satisfaction
- Handled troubleshooting of Captiva system with the Captiva Administration; this includes batch monitoring.
- Participating in the Software Development Lifecycle right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications
- Assisting in managing end to end of projects from the stage of initiation till monitoring & control and closure including planning, estimation & scheduling and updating information to all stakeholders.

Client – CITI Bank | Florida USA

- Worked with CITI Bank in Tampa, Florida, USA for enhancements of the applications.
- Analysing complex functional & non-functional requirements, making appropriate design adjustments, providing effort estimates to support project management
- Developing enterprise level applications using **Microsoft Technologies, .NET, SQL Server.**
- Framing architectural decisions, providing leadership & direction in the areas of technology and product development to facilitate and enable growth and business agility
- Recommending resource allocation and setting up communication channels across the organization

Client – Disney | Florida USA

- Developing enterprise level applications using **Microsoft Technologies, .NET, SQL Server and Azure Service Bus**
- Making appropriate design adjustments, providing effort estimates to support project management and developing the complex modules.
- Managing projects to successful completion under tight deadlines with high client satisfaction
- Planning, designing, coding, analysing, and conducting test systems for applications; developing and executing unit/ basic/ functional test cases & framework
- Developing applications for time-sensitive projects while considering business and system requirements
- Mapping requirements and providing customized software solutions involving finalization of product specifications and selection of appropriate techniques; conducting system study and coordinating with team members for System Design & Integration, Application Maintenance, and so on
- Assisting in managing end to end of projects from the stage of initiation till monitoring & control and closure including planning, estimation & scheduling and updating information to all stakeholders
- Coordinating for checking project progress & outstanding issues and ensuring the quality & timeliness of the deliverables

IT Analyst | Tata Consultancy Services | May 2007- Sept 2010

- Developed Prototype for Authoring Bench tool and User-friendly GUI interface using Visual Studio .Net 2.0
- Importing and validated ECU files; generated ECU Specification Output files
- Wrote scripts for Test Complete to test the application and System Test Plan

Software Engineer | Metis Infosol | June 2005- May 2007

- Understood Functional Specifications of the Various Activities in the Industry
- Developed the User-friendly GUI interface using Visual Studio .Net 2.0
- Deployed, integrated and managed configuration of entire application modules

Bachelors Education:

B.Tech (Computer Science and Engineering) JNTU, Hyderabad India (Sept 2001 – April 2005)
