

Viradia Priyank

Full Stack Developer

(502) 296-8667 | priyankviradia585@gmail.com | Wylie, Texas

CAREER SUMMARY

- Highly motivated Full-Stack Developer with 3+ years of experience building and deploying scalable, user-centric web applications.
- Proven ability to design and develop user-friendly interfaces (HTML5, CSS3, JavaScript) and powerful back-end functionalities (Node.js, Python, Java).
- Experienced in cloud platforms (AWS, Azure) and Agile methodologies (Git, CI/CD) for efficient development and deployment.
- Passionate about building high-performance applications with a focus on accessibility and responsive design, ensuring exceptional user experiences across all devices.
- Thrive in collaborative environments, utilizing strong problem-solving, communication, and time management skills to deliver projects on time and within budget.

SKILLS

Front-end Skills: HTML5, CSS3, JavaScript, React.js, Angular, Vue.js, Responsive Design, UI/UX Design, Frameworks (Bootstrap, Material UI), Accessibility

Back-end Skills: Node.js, Express.js, Python, Java, PHP, .NET, SQL/NoSQL, RESTful APIs

Databases: Relational Databases (MySQL, PostgreSQL, Oracle), NoSQL Databases (MongoDB, Cassandra, Redis)

Other Skills: Git, Agile Methodologies, Database Management, Cloud Computing (AWS, Azure), API Design and Integration, Problem Solving, Communication, Collaboration, Time Management, Project Management

PROFESSIONAL WORK EXPERIENCE

Planck Technology | Full Stack Developer

06/2023-Present

- Designed and developed a highly responsive e-commerce platform using React.js and Bootstrap, resulting in a 20% increase in mobile conversions.
- Increased user engagement by 15% through UI/UX redesign and accessibility improvements on a social media application, leveraging Figma for prototyping and WCAG compliance.
- Built and deployed a scalable RESTful API using Node.js and Express.js, handling over 10,000 requests per hour.
- Successfully migrated a legacy application from a monolithic architecture to a microservices architecture using AWS, achieving a 30% reduction in deployment time.
- Championed Agile methodologies within a cross-functional team, leading to the successful on-time delivery of 5 complex projects within the past year.

Citus Info. | Full Stack Developer

04/2018-07/2021

- Spearheaded the implementation of a comprehensive unit testing framework Jest for a critical internal application, resulting in a 70% reduction in post-deployment bugs.
- Streamlined development workflow by 25% through the creation of reusable JavaScript components and utilization of a task runner for automated build processes.
- Enhanced team collaboration and project visibility by utilizing project management tool Jira to track progress and manage backlogs effectively.
- Optimized database performance by 10% through query optimization techniques and proper SQL database schema design for a high-traffic web application.
- Successfully containerized a critical microservice using Docker, enabling a 50% reduction in application deployment time, and simplifying infrastructure management.
- Contributed to a positive and productive team environment by fostering knowledge sharing through internal code reviews and technical workshops, leading to a 10% increase in team productivity.

EDUCATION

Master of Science in Computer Science

09/2021 – 05/2023

New York University, New York

Bachelor of Engineering in Computer Engineering

07/2017 – 07/2021

Gujarat Technological University, India
